BOOK SYNOPSIS

Its the story the insurance industry doesnt want you to know. Now, for the first time, the story in the legal book From Good Hands to Boxing Gloves is available to the public. Find out for yourself why insurance companies are improperly denying claims, delaying them, and defending them at trial. The book takes you from the ideas which masterminded Enron, through their impact on the insurance industry, and the resulting claim denials in everything from minor auto accidents to Hurricane Katrina claims. Author David Berardinelli is the trial lawyer who diligently worked to become the first to obtain the "McKinsey Documents" unprotected. He discusses how these documents teach insurers to profit by denying policyholders "good hands" to treat them with "boxing gloves." Learn how Allstate has earned the highest profits in insurance company history during the years with our countrys largest natural disasters.
